

Chevron Glass

COOL-LITE® XTREME series

HIGH SELECTIVITY SOLAR CONTROL GLASS PRODUCTS

The COOL-LITE® XTREME series of energy saving Low-E glass products from the latest innovations in high performance solar control coatings. A product designed with high light transmission, excellent U-Values and low solar heat gains combine to create comfortable interiors. COOL-LITE® XTREME provides the latest in glass technology from Saint-Gobain combining with Chevron Glass Insulated Glass Unit (IGU) manufacturing in Adelaide.

COOL-LITE® XTREME must be incorporated into an IGU and needs to be toughened or heat strengthened. It can also be manufactured using a variety of different products to enhance security and acoustics.

A product range designed for the challenges required to meet current energy regulations in the Australian market.

Product	Light Transmission (LT)	SHGC	U-Value
COOL-LITE® XTREME 70/33	68%	0.29	1.3
COOL-LITE® XTREME 61/29	59%	0.26	1.3
COOL-LITE® XTREME 50/22	45%	0.19	1.3
