INNOVATIVE GLASS SOLUTIONS

PRODUCT RELEASE

## 10mm CLOUD

We are pleased to introduce Cloud, a low iron product with an acid etched gradient finish. Cloud provides a 700mm privacy veil, leaving the rest of the glass transparent.

This product is ideal for shower screens.

It is available in 10mm thickness and can be toughened to AS/NZS 2208.

Cloud is smooth to touch, has a resistance to scratches, fingerprints and is easy to clean.

If you would like further information about this product or any other glass product, please contact your Chevron Glass sales representative.

**Maximum Height : 2150mm**
